Sarasota County GIS to undergo maintenance on Jan. 27

Sarasota County's Geographic Information System (GIS) Web site will undergo planned maintenance from 6-10 p.m. Wednesday, Jan. 27. The county's GIS Web sites and GIS Web services for the Property Appraiser's Office will not be available during this time as well.

The planned maintenance is to install a software service pack recommended by the county's software vendor, ESRI. The pack will ensure system stability and reliability.

For more information about Sarasota County's GIS services, call the Sarasota County Call Center at 941-861-5000.
