Sarasota County Fleet Services wins prestigious award

Sarasota County Fleet Services was recognized as one of the best-performing fleet programs in North America. The county's program was ranked 13 among the 38,000 fleet programs in the 2010 rankings released June 22 by the 100 Best Fleets Program.

"This could not have been done without the customer service and professionalism of the entire fleet team, which exceeded performance measure goals," said Greg Morris, operations manager. Morris also noted that less than one point separated the top 15-ranked programs.

Sponsored by Government Fleet Magazine, the 100 Best Fleets program recognizes and rewards peak-performing fleet operations in North America. Currently in its seventh year, 100 Best Fleets identifies and encourages ever-increasing levels of performance improvement within the fleet industry.
